MINI-ME HYDRO PACK

MODEL DESCRIPTIONS

The Mini-Me is a hydration pack and more; it has an expansion system that at first glance looks conventional. Start un-zipping its wrap-around zipper and you get more space for something long. But when you keep going, you realize that you've opened up a tunnel for the insertion of one of our gun scabbards. Slide one in, and you've got a rig that'll make carrying your gun as close to carrying a biathlon rifle as you can get without getting the real thing.

Recommended scabbard accessories are A1SS, A2SS, or A2LS, depending on the size of your gun.

Thinking about this for hunting, but you're not a gun hunter? The Mini-Me is a great bowhunters pack - add our ARCG ButtBucket kit, and it becomes a super compact bow pack. Rigged correctly, the bow rides very stably, and you can get it off your back with on-the-fly access.

PRODUCT FEATURES
