SPECTRE CHEST MINI RIG

MODEL DESCRIPTIONS

This small Chest Rig is entirely made of Cordura 1000D, the shoulder straps feature a light highly resistant Airnet padding. The front part is totally MOLLE compatible. The upper side is closed by a stretch interface along the entire length. This allows to insert pockets with stretch interface like the internal shingle mag pouch.

Shoulder straps ensure great comfort and a low profile.

Provided with several elastic interfaces for fixing the cables of the various electronic apparatus.

The Assault Pack and FAST Assault Pack can be mounted directly on the Chest Rig structure.
