FAC TRACK

MODEL DESCRIPTIONS

EBERLESTOCK FAC TRACK F3F.

The F3F has a big barn-door front opening, a zip-around top opening which optimizes it for PRC-117 type radios, MOLLE/PALS compatible webbing up the sides, and two exterior front pockets. This is a great all-around 3-day pack, but we named it the FAC Track because it is the best-in-class pack for Forward Air Controllers.

Features include:

" Upper back wall radio rack with 3 antenna portals.

" Padlock webbing tie-points all over the pack.

" "Shooters harness" with 3D mesh is vertically adjustable for varying torso lengths, and is both thinner for shooting, and more comfortable for heavier loads.

" Numerous small pockets and organizers - so you can always go right to what youre looking for.

" Gossamer polycarbonate frame.

" Handles on 3 sides make it easy to pick the pack up, especially when retrieving it from your vehicle.

" Five hydration compatible pockets.

" Includes G1RC Rain Cover, stowed in a zippered pocket in the bottom of the pack.

Ready to mount two AN2P or AA2FK pouches, or one A3SB Saddle Bag on each side (sold separately).

" Dimensions main bag: 24?h x 10?w x 7?d

" Total Volume: 1,910 c.i.

" Weight: 6 lbs 14 oz

" Actual weight = 7.5 lbs.

" Shipping Dimensional weight = 11.0 lbs
