PRODUCT SHEET

GUNRUNNER PACK H2

MODEL DESCRIPTIONS

EBERLESTOCK The H2 Gunrunner is a minimalist, lightweight rifle pack with patented Backscabbard. It is designed for hands-free hunting and quick access to your rifle, and has just the right amount of stowage for a day's outing. The top compartment is a good size for range finders, calls, etc., and the main compartment is sized for a day-outings worth of food and clothing. It has an internal sleeve sized for either Eberlestock WX2L or WXP3L hydration bladders (sold separately). It has vertical and horizontal compression straps, useful for grappling things to the pack. Side webbing is configured to mate with the A3SB Saddle Bag, which allows you to increase the capacity of the pack by adding up to two of these 3-liter pockets.

PRODUCT FEATURES

- " Built in rifle scabbard
- " One vertical and one horizontal compression strap
