LODRAG II PACK -

MODEL DESCRIPTIONS

EBERLESTOCK LODRAG II PACK X31.

The X31 LoDrag II is the newest generation of our LoDrag pack. Designed to be highly functional, minimalist, lightweight tactical packs, the X31 incorporates a tactical weapon-sized scabbard. It has a unique contour shape that tapers at both the top and the bottom, giving the pack an excellent close-to-the-body ride. The packs are fully compressible with pairs of side-mounted compression straps that draw the load upward to optimally position the packs contents over the wearers center-of-gravity. New to the X31, the LoDrag II has two new generously sized form-following pockets on the exterior of the upper and lower front flaps. MOLLE-10 lightweight webbing is used, to which you can attach conventional 25mm MOLLE accessories.

The interior features include a hydration sleeve (water bladders sold separately), two document / laptop sleeves, a mesh zippered pocket, MOLLE compatible webbing, and a fold-away shelf that allows you to either segregate or combine the top and bottom interior load space. Built in 420 denier ripstop nylon. Comes with our polycarbonate Gossamer frame, which can be interchanged with the aluminum Intex II frame (sold separately).

The X31 can be combined with the GSTC Butt Cover (not included but available as a separate accessory), to fully enclose a weapon up to 60? in length.

Pack Volume: 1,800 c.i.

Scabbard Volume: 600 c.i.

Total Volume: 2,400 c.i.

Weight: 6 lbs 8 oz.

Dimensions main bag: 22"h x 11"w x 8.5"d.

Scabbard Dimensions: 34"L x 10"W x 3"D, with a 26" circumference opening.

Actual weight = 6.5 lbs. Shipping weight = 11 lbs.
