LEGION UNIFORM VEST

MODEL DESCRIPTIONS

The Legion Uniform Vest was made to cover the various versions of Combat Shirt and get a more uniform look when ballistic protections are not worn. Covering the jersey part of the various shirts you can still wear the identification patches and use the pockets. There are 2 Napoleonic pockets on the chest and 2 ventral pockets. 2 practical zips prepare the garment if a belt holster is used.

Thanks to the nanotechnology used for its production, the elasticated fabric of this vest remains at a constant temperature even when exposed to direct sunlight. It is also water repellent.
