MODEL DESCRIPTIONS

EBERLESTOCK MULTIPACK A2MP.

The A2MP has ten pockets. But it's not about the pockets& It's just an exceptionally useful and versatile piece of gear. The MultiPack is a padded, compact, multi-pocket accessory pouch with many potential uses. With Eberlestock's Padlock attachment system built in, it can be mounted to a Padlock/PALS/MOLLE mounting panel on your backpack. A nice feature of this system is that you can mount it to just about anything: run your pants belt through it and use it as a hip pack, or use our optional APSK Chest Pack Suspender Kit, and wear it as a chest pack. It's a perfect fit for most full-sized binoculars, and works well for other small sundries, and for items such as full-size digital cameras.
